i support the passage of the new proposed ordinance regarding the digging of hazardous holes in the beach of del mar. for too long i have witnessed the digging of huge holes on the beach ---so large they would swallow a vw bug. i have seen beach maintenance full pickup trucks fall into these holes and need to be dragged out with a tractor. people and dogs can fall into these holes at night and break legs or worse. the danger of these holes is dramatic and the passage of this new ordinance will help solve a huge problem and keep people and dogs safe. thank you
